# IT'S TIME Backyard Entertaining!

## Get Outside!

June is one of the most beautiful months in Colorado, and the great weather beckons us to come outside. Your backyard can be the perfect place to enjoy a cool drink, read a book, or gather with friends for a meal.

It's easy to create a welcoming environment for relaxation.

- String accent lights through your trees or bushes to add a soft, warm glow to evenings.
- Place the drinks table (tub, cooler, or wheelbarrow) where it's easy to find and fill it with refreshing options. Serve chilled lemonade, tea, and water in dispensers or Mason jars.
- Seat all your guests at one long table set under a tree on the lawn. It creates a warm, family feeling.
- Set up games like cornhole and croquette to warm up conversation between new acquaintances. Short on space? Lay out some game boards and cards.
- Add a fire pit to circle around. It creates a warm focal point for conversations.
- Add an outdoor rug to define your entertaining area and provide a soft surface for little ones.
- Plan a menu that's easy to prepare ahead of time, so you can enjoy your guests.

Dear Friends,

Don't you wish time could slow down for these few summer months? Our schedules are so full because there are just too many good things to do this time of year.

I really enjoy looking online at pictures of cool patio and deck ideas. It's fun to add new colors and textures to create a relaxing and inviting place to hang out when it's warm outside.

Our hope is to help you create memorable backyard times including some delicious food and drink ideas. One of my new favorites is the cold brew coffee. Since I am a "cream and sugar" person, I especially like the New Orleans Style Chicory brew. Sipping it on ice sounds like a lovely way to spend time under a sun umbrella. And, it tastes amazing mixed with chocolate Pro-to-Go milk! (Call it lunch perhaps?)

The main idea is to enjoy your outdoor space with friends and loved ones. Make it a priority!!

Take care till next time,

*Susan*
